

APPENDIX C

SURVEY INSTRUMENT

The document in this appendix was printed and mailed to every resident and landowner of property within the Town of Milo, including those within the limits of the portion of the Village of Penn Yan contained within the Town of Milo. A total of 3,461 surveys were distributed, and 775, representing about 22.4 percent, were returned. From the approximately 2,211 distributed to residents and landowners in the Village of Penn Yan (including those sent to all multi-family residences), 393 responses were received, comprising about 17.8 percent. From the 1,250 surveys distributed to residents of the Town of Milo outside the Village of Penn Yan, 321 responses were received, comprising about 25.7 percent. Return postage was affixed to each survey to encourage return of the survey. The number of responses comprises a statistically significant sample from which meaningful analyses can be made. Of the 775 survey responses, 52.05 percent were from residents or business owners within the Village of Penn Yan, 42.52 percent were from residents or business owners of the Town of Milo outside of the Village of Penn Yan. On 41 responses comprising 5.43 percent of respondents did not answer question 1 or they indicated multiple answers that did not allow positive identification whether the respondent was from the Village or the portion of the Town of Milo outside the Village.
